

## Housing

### THE STUDENT RESIDENCE OF THE LYON CNSMD

For the 2021-2022 academic year:

- 23 places are reserved for students aged 16 to 18
- 4 places are reserved for Erasmus exchange students
- 25 places are reserved for students aged 18 to à 28.

The residence is only open to students who have taken their audition and been admitted to the CNSMD.

### ALLOCATION OF PLACES

#### Commission

Rooms are allocated by a committee composed of:

- the director (chairperson);
- the deputy director, the director of music studies, the director of choreographic studies, the head of student administration, the head of finance, the residence manager (or their representatives), two members of teaching staff, two student representatives, members of the board of administration.

Although the committee makes the proposals of the allocation of the housing of the student residence of the CNSMD, the final decision is taken by the director. The applications are presented by the housing office.

It should be noted that the committee allocates places in the residence and not a room of any particular type. The housing office allocates places in rooms after the committee meets, according to availability and, if possible, to the wishes expressed by the student.

#### Criteria for allocation

Places are allocated according to the financial situation of the family, the age of the student and the distance from the conservatory to his or her home address.

#### Committee meeting dates

The commission meets once a year in July after the entrance exams (2022: date to be confirmed).

#### Important !

For some students there is very little time for the preparation of their housing application. It is therefore a good idea to collect the necessary documents in advance (*see list below*).

Housing is not usually allocated to first year music students until after the beginning of their term, so it is wise for them to plan to spend the first week of term in temporary housing outside the conservatory.

### **Admission to the residence**

The results of the commission will be published on the CNSMD website and displayed in the reception hall of the establishment.

## **HOW THE Residence IS ORGANISED**

The allocation of a place entails the right to occupy the room for the whole year during the period periods when the residence is open, which are determined each year. Rooms must be vacated and emptied during the summer holidays. Students aged 18 and over can enter and leave the building until the conservatory closes at 1 o'clock in the morning. The resident pays a deposit equivalent to a month's rent on arrival. This sum is held by the conservatory and returned to the student on his or her final departure provided that no damage has been caused to the room and all rent has been duly paid.

### **How 'safe boarding' ('internat surveillé') operates**

If parents ask specifically for 'safe boarding', students aged 16 or 17 can benefit from special security arrangements. From 7.30 am to 8 pm the movements of under-age students are not monitored and they are free to leave the conservatory as and when they want. Between 8 pm and 7.30 am under-age students must remain on the premises. If they want to leave the conservatory during these hours they must obtain written permission from their parents to do so. A night watchman is present at the conservatory from 8 pm onwards. He checks regularly on all under-age students between 8 pm and 11 pm. During the night he occupies a room on the same floor as the under-age students and can intervene after 11:30 pm in case of problems, notably those of security and discipline.

### **Important!**

Under-age students from abroad seeking a place in the residence **must** be able to give the name of an adult who will act on behalf of their parents if necessary. This person must be resident in France and if possible in the Lyon region. He or she must be able to intervene quickly if the under-age student has a problem (such as being taken to hospital for example).
